Dedication

The Washington Township High School Class of 1968 has seen many and extreme changes within their schools. Many of us began our education in a district with three small elementary schools containing some 500 pupils in grades K-8, and a total staff of approximately thirty-five. As the years passed, new classmates joined us, our district grew, new schools were built and many new teachers came to those schools. We, the 1968 graduating class, are the senior students of a school district composed of six elementary schools, and a full junior-senior high school. Our district, now containing 3300 students and a staff of 245, is the second largest in our county.

Mr. Walker, Superintendent of Schools, stood with us then as our principal and teacher as he does now as our chief school administrator. His devotion and selfless dedication has been the driving force behind the growth and development of our schools, their origin and construction, as well as the containing force that has controlled the change, molded the program, and guided our educational destiny.

Mr. Walker is, today, the only school leader who has stood with us through all of those years and to him we dedicate our 1968 Yearbook.

The Washington Township Wrestlers have had a fine season this year. They have won eleven of their fourteen matches, and placed second in the District Championships. Ed Exley, our 98 lb. District Champ was undefeated all season, the other eleven boys also have excellent records. Mr. Guidi and Mr. Noe deserve a great deal of credit for the time and effort they have spent coaching our outstanding team! We have reason to be proud of our great wrestlers.

BOARD OF EDUCATION

PRINCIPAL

Militancy . . . . Freedom Marches . . . , Constitutional Rights . . . . Sit-ins . . . . Walk-outs . . . . Strikes . . . . How shall we describe this, your year, the Class of 1968? A nation in a state of crisis or a nation on the threshold of new hope and new opportunity . . . . a challenge to the decaying beliefs of the past or an encounter with the glowing truths of our day. Never have the youth of our nation become so involved in major issues – many with purpose and understanding – others simply to fulfill a desire to be of this day. The youth of no past generation have ever been so hard-pressed to establish a meaningful scale of values so early in life.

In the past fifty years, through education, man has learned more about his world than has been discovered since the world existed. Our education has taught us to travel with great speed, and to build dreadfully destructive weapons of war. But what have we learned of humanity . . . . knowledge of self . . . . knowledge of our fellow man . . . . values based on human kindness? With all our new-found knowledge, poverty, disease and oppression are still very much with us. National turmoil exists. Man speaks to his fellow man but fails to communicate.

It is perhaps for you, the Class of 1968, to help us find ways to help others effectively, to understand the rights and freedoms intended in our Constitution, and to share our knowledge and skills with those who need them so desperately throughout the world.

I wish for each of you courage to meet the challenge of the future, strength to overcome adversity, wisdom to seek truth, and most of all, endurance and determination to perpetuate the values we cherish most in our American way of life.

I wish you well.

Our high school career has now come to an end and each of us must pursue his separate ideals. Many of us will be continuing our schooling, others will be working or entering the service. Whatever we do, we must strive to continue to grow in knowledge, character, and experience.

There will always be apathy! But the members of the Class of '68 of Washington Township High School must endeavor to maintain their individuality. This does not have to be done with fanfare. If one knows within oneself that he is an individual and adheres to his beliefs, then he has been true to himself and his training.

We can all be proud that we were members of the Class of '68. We must now meet the challenges ahead with Spirit and drive.
